

Multiplying by 2, 5 and 10

$$5 \times 2 = \square$$

$$\triangle \times 2 = \square$$

$$\bigcirc \times 2 = \square$$

$$3 \times 5 = \square$$

$$\text{pentagon} \times 5 = \square$$

$$\text{hexagon} \times 5 = \square$$

$$9 \times 10 = \square$$

$$\triangle \times 10 = \square$$

$$\diamond \times 10 = \square$$

Complete a multiplication for the number of legs in each group of monsters.

Use your fingers to count on, in 2s, 5s and 10s.

There are 20 legs. How many monsters could there be and how many legs do they have each? Now think of a different monster.
