Safeguarding Team: Tracey Fletcher (Headteacher and Designated Safeguarding Lead)

Vicky Oakes (Deputy Designated Safeguarding Lead)

'Clothe yourselves with compassion, kindness, humility, gentleness and patience.'

Colossians 3:12

This week's value: **Compassion**

Dear parents and carers,

It is hard to believe that we have just finished the third week back in school. Our value this week was compassion. We looked at how we can show this value in our everyday lives.

On Thursday, I had the pleasure of visiting every class and spending a bit of time with the children looking at their learning. In Reception the children taught me how to write the letter d correctly. It was great to see so many children being able to 'teach' the Headteacher! In Year 1, the class were learning new sounds. They were able to spell some tricky words, being taught to them by a pirate! Well done Year 1. In Year 2, the children were practising their handwriting and proudly told me what they were pleased with. Beautiful work Year 2. In Year 3, I was told about the stories the children were writing about a woolly mammoth. There were some great ideas, one involving a sabre tooth tiger! Great work Year 3! In Year 4, the children were showing their understanding of place value. I saw some great team work when being asked to solve a problem. Fabulous Year 4! In Year 5, the children were working through some tricky Maths. They happily explained their thinking, showing how they had solved some of the questions. Marvellous mathematicians Year 5! In Year 6, I listened to the children discussing how to solve some very challenging word problems. A great depth of understanding was displayed. Well done Year 6!

It was an absolute joy to see the children having such fun with their learning. Thank you!

I hope that you have a lovely weekend.

Mrs Tracey Fletcher
Headteacher

Dates for the Diary

Tuesday 27th September

Firefighters Visit – Reception Class

Thursday 29th September

Phonics Meetings for Reception Class and Year 1 Parents 2.30pm and 7.00pm

Year 6 at Saltash Community School for visiting author

Tuesday 4th October

Parents Evening – letter to follow

Wednesday 5th October

Police Visit – Reception Class

Parents Evening – letter to follow

Saturday 8th October

Animal Enclosure Maintenance Day – 9am-12pm

Wednesday 12th October

Harvest Festival – St. Stephen's Church 1.45pm

Thursday 13th October

Tea and Talk 2.45pm

Monday 17th October

Nasal Flu vaccinations

Thursday 20th October

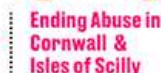

Year 3 Stone Age Day

Friday 21st October

Last day of half term

Monday 31st October

Back to school

Achievement Awards

Olly in Reception Class deserves the achievement award this week. He comes into school every day with a smile and a ready to learn attitude. Keep it up Olly!

Darcie in Year 1 for making excellent links in Science and knowing what a carnivore, herbivore and omnivore is! She has such an enthusiastic attitude to her learning and has made a great start to Year 1.

Jack in Year 2 deserves the award this week for all of the amazing work he has done so far in school. He has come back with a super attitude to learning and is making huge progress, especially in maths. We are so proud of you Jack!

Filoumeni in Year 3 for her amazing reading and quizzing.

Autumn in Year 4 created an amazing piece of home work on Ancient Egypt. She drew a lovely labelled diagram and made a sarcophagus on a 3d printer with her dad. We enjoyed seeing her lovely 'chilli challenge' homework in class.

Matthew in Year 5 has been 'on fire' with his maths learning this week, and has been keen to share this during lessons, explaining his thinking brilliantly, earning himself some Maths Dojo Points!! Keep it up! 😊

Barney in Year 6 for a brilliantly sketched portrait of the Queen and for producing some poignant writing about why she was a good Christian.

Value Awards

Lilly in Reception Class is a very compassionate child. She loves looking after the other children and will help guide them as well as play with them all. She is a brilliant helper and a super member of Reception class.

Elliott in Year 1 shows compassion with his classmates both in class and out on the playground. He is a caring and helpful friend. Well done Elliott.

Rosie in Year 2 always shows compassion to those around her. She makes sure everyone is treated with kindness and I can often hear her quietly checking on others if they have been upset. Thank you Rosie for being so caring.

Jacob B in Year 3 is a very compassionate young boy and there have been several occasions this week where he has shown this. Well done Jacob!

Casey in Year 4 was absolutely amazing in our maths learning at the end of the week. When adding 2 numbers together, he clearly verbalised his thinking and could explain how he adjusted the numbers so a mental method could be used effectively. He showed great compassion to others by sharing his answer and findings. Well done Casey.

Molly in Year 5 is a very compassionate member of our class, being very thoughtful and considerate of others' needs. Thank you, Molly. 😊

Jess in Year 6 for supporting her peers in maths. She saw that one of her peers was struggling so helped them and they worked together brilliantly as a team. Well done Jess 😊

This week in school we have...

This week Year 2 have been hard at work writing adjectives and continuing to develop their place value skills. They have also learnt a bit more about England, the flag and where it comes from. In RE we have been thinking about the Good news about peace that the bible gives us and making our own hearts. We went into the woods and explored different habitats as well as making the amazing see saw you can see in the picture. It has been a great week.

This week Year 1 have been creating their own Dear Zoo story and enjoying some pirate phonics! They have also been counting dinosaurs in Maths and exploring their senses in Science inside the classroom and outside on the playground.

This week in Year 3 the children have been super scientists investigating the properties of rocks and answering a big question around this. They have been writing out Stone-age stories, learning about Hindu worship, making stone-age homes in the woods and enjoying team sports.

This week in Year 4 we have been really working hard on place value in maths. We have been using practical apparatus to understand 4-digit numbers. In our English work, we drew our own mythical beasts and used imaginative language to write a description of these. This week's photo is of our 'sound' walk around school to listen out to different things we can hear and understand that sound travels through the air to our ears.

This week Reception class had a great time exploring our curiosity cube that we have inside the classroom. It sparked lots of conversation and excitement. Reception class also enjoyed time on the field for their first try of PE with Mr Brown!

Year 6 have been looking at electricity and how we can harness greener options of power. We have made our own electrical circuits and can use technical vocabulary to describe key components to make a bulb light up. We also completed our work about Queen Elizabeth II and what qualities are needed to be Head of the Church of England.

Year 5 have been deepening their understanding of place value, working with numbers to one million! They've also been having fun making boring, simple sentences 'come alive' and thinking what qualities they would choose, if they were to build their own God!
