Wasteland to Wonderland

Inspired by the life and ideas of Cornwall's Catherine Payton Phillips

Famously on her World travels in the mid 1700's Catherine encountered Crocodiles while braving dangerous creeks and swamps.

With artist Vicki Aimers we are holding a day of activities to support Catherines ideas about the environment, beautifying wastelands and growing lots of trees, especially fruit trees.

Make a simple long concertina crocodile from recycled materials - see below. Draw and collage images onto the belly of the fictional crocodile such as apples, pears, leaves, blossom, pips, bees and butterflies etc.

The first activity craft session would start at 10.30am and the second would start at 1.30pm

At 3.30pm we have an activity for everybody to try. Making an Autumn Orchard Wreath inspired by apples.
